DECISION PRACTICALLY MADE ON ROAD TO SAVANNAH.

INSPECTED THAT ROUTE

Decision on Other Roads to Be Made Later-Probable Route of Other County Seat Highways.

The county seat highway from Mary ville to Savannah has been practically selected by the commissioners of the two counties, who met at Barnard on Tuesday. The road from Maryville will go by the way of Barnard then on to Bolckow, then to Rosendale, to Wyeth and on into Savannah. The road from this city to Barnard has not been selected in full. The county commission here is somewhat in favor of using the Saints trail to Barnard with the exception of about two miles from the five mile corner. At that place, the commission seems in favor of using the road that turns east and square miles. goes around by the Wamsley farm, as there are no bad bridges on this road purpose of determining the different and the road is in good shape. The types of soil in the counties and what rest of the Saints trail will be used crops they are best adapted to. The for the Savannah road.

The Nodaway commission, John Clary and E. H. Bainum of this city, published later, together with a soil and S. H. Conlin of Barnard, were in conference with the Andrew county commission at Barnard yesterday and they made the trip together over the churches, schools, railroads, public road from Barnard to Bolckow

The other highways have not been selected by the commission as yet, but it seems to be the policy of the commission that the various roads strike as many of the towns as possible.

There is some question in the minds of the commission as to the road from this city to Rock Port. Since Clear mont and Burlington Junction seem to be after the state line road, Burlington Junction will be removed so far as the Rock Port road is concerned. Skidmore would like to have this road sas and will probably make an effort to secure it. If the road goes by Skidmore, then the highway will go to Fairfax and then on into Rock Port, leaving Tarkio off of the road.

Graham and Hughes township will probably secure the highway to Oregon. Ravenwood or Conception will get the Albany highway, Ravenwood standing a better chance than Conception. The Grant City highway, it is figured, will go by the way of Pickering and Hopkins, then in Independence township to Sheridan in Worth county.

TO SURVEY FIVE COUNTIES.

Nodaway One of Those in Which Soil Tests Will Be Conducted By Bureau This Year.

The Bureau of Soils of the United States Department of Agriculture, in co-operation with the University of Missouri and Agricultural Experiment Station, will soon begin soil surveys in Nodaway, Green, Perry, Ralls and New Madrid counties in this state. E. S. Vanatta of the bureau of soils at Washington has been in the county the past week or so and is now at work in the Burlington Junction vicinity The man from the state university to co-operate with Mr. Vanatta in this work will not be here until the second week in June

Nodaway county contains approximately 864 square miles. Green county 667, Perry county 468, Ralls county 480, and New Madrid county 654

The surveys will be made for the surveys will be completed this fall, when the reports will be prepared and map in colors of each county showing the locations and extent of the different types of soil, farm houses roads and streams in the counties.

The bureau of soils has made complete soil surveys of Atchison, Barton, Bates, Cape Girardeau, Carroll Cass Cedar, Cooper, Crawford, Franklin Howell, Jackson, Laclede, Macon Marion, Miller, Pemiscot, Pike, Platte Putnam, Saline, Scotland, Shelby Stoddard and Webster counties, and partial surveys in Lincoln, St. Charles and St. Louis counties. A reconnois sance soil survey is in progress of the Ozark region of Missouri and Arkan-

AT CENTENARY CHURCH.

Children's Day Observed Last Sunday and Program by Children Was Fine.

Last Sunday evening was the day of children's services at Centenary church of the Skidmore circuit M. E. Church, South. The pastor, Rev. J. F. Patton, preached a sermon appropriate to the occasion at the morning services. At the evening service standing room was at a premium and plenty of the space outside the windows and door was used. The house was beautifully decorated with natural The program was rendered to the satisfaction of all. It was said by a lady visitor from Kansas City that she enjoyed it as much as she A large delegation from Sheridan had enjoyed any program in that city.

between Maryville and Grant City. The songs, drills and music by the Pleasant Sheridan people would like to have Hill orchestra. The participants had the ridge road, east of Maryville, used been well drilled and this was manias part of the highway, and then on fested during the rendition of the pro- Conception Abbey in 1878 in company into Sheridan. If the ridge road is gram, as there was not the least misused, then it will cut off Ravenwood take in any of the parts. The orchestra is certainly to be congratulated J. B. Ruh, a member of the Worth for the excellency of their music. county commission, was in the party They have only been practicing for a short time and have made remarkable torney-general had given an opinion progress. Thanks be to all who helped that Worth county was entitled to two to make the program a success, and especially to Mrs. F. C. Cavanaugh, went to Kansas City Tuesday morning to visit her sister, Mrs. E. R. Nelson. Mrs. Steren's husband died a month ago at the home of his sister. Mrs. Elizabeth Thurman of St. Joseph. nesday noon and spent the afternoon He was a victim of tuberculosis and with Miss Heien Wamsley, a member , had started on a trip to Kansas, think-Mr. and Mrs. Forbes Minard were of the class. They made the trip on ing it would benefit him, when he sudhay frames and will return to the city denly died on reaching his sister's home in St. Joseph.

DRUGGIST RECOMMENDS

Vinol for Run-Down People.

If any one person should know the value of medicines it is the druggist who dispenses them, and from our exhome south of Maryville. A baseball perience we want to say if people in game and a track meet will be the this vicinity only knew the value of vinol, our delicious cod liver and iron tonic (without oil), at this season of the year, we would not be able to sup-

This is because Vinol is a combination of the two most world famed tonics, namely, the medicinal curative elements of cods' livers without the oil, and iron for the blood.

Vinol tones up the digestive organs, purifies and enriches the blood, promotes healthful sleep and a normal

appetite. Old people, delicate children, rundown, overworked and tired women, should try a bottle of Vinol with the understanding that your money will be returned if it does not help you .---Advertisement.

CORROBORATE T. R.'S STORY

Witnesses Assert They Never Saw Colonel Intoxicated.

PHYSICIANS ON THE STAND.

Roosevelt Declares He Was Never Un. der the Influence of Liquor in His Life: Not Total Abstainer-Sometimes Takes White Wine.

Marquette, Mich., May 28 .- Theodore Roosevelt, a picture of ruddy vigor and perfect health, turned a square head and a square jaw in the direction of twelve farmers, teamsters, miners and woodsmen in court and gave his character for sobriety as "not a total abstainer," but never intoxicated in his life. His cestimony was

corroborated by others who followed.

If the sturdy looking man who spent
seven years of his life in performing
the duties of president of the United States saw anything curious in his position of explaining to the twelve simple toilers of the woods and the mines that he was not really a drunkard, as charged in an alleged libelous editorial by the defendant, George A. Newett, his countenance did not betray it, nor

When Mr. Pound, his counsel, after a brief outline of the plaintiff's case to the jury, called the colonel to the witness stand, the latter stepped brisk

ly forward. Tells the Jury.

"Now tell the jury," instructed his lawyer, and the client, who had been president, twisted his chair to face the jurors in their box and proceeded to "tell them" as directed.

The witness expressed a detestation for whisky and beer. Of the latter he could remember having taken only one mouthful in his life. That was at the Deutschers' club in Milwaukee, where he was urged to pay the tribute of a swallow of the amber brew which forms one of the city's leading indus-As for whisky, he got it most ly under protest upon insistence of his dectors who put a tespoonful of it in goblets of milk which they sometimes pressed upon him on occasions of extreme fatigue in the midst of political

Drank Only Under Compulsion. In epitome the former president's testimony showed that he drank liquo or wine only when compelled to for indisposition, or when public occations required, except that he takes a glass of light wine, rarely two glasses, with his meals.

Much of the succeeding testimony was introduced to indicate that the plaintiff's physical vigor, his functional perfection, his violence of exercise and his immense capacity for work could not exist in the person of an adividual who got "drunk" and that not infrequently, as the alleged libel-ous article in the Iron Ore charged.

Important witnesses on this phase of the examination were Dr. Alexander Lambert, Roosevelt's family physician and intimate friend of thirty years. and Dr. R. N. Rixey, surgeon general. United States navy, retired, whose of ficial duties during the McKinley and Roosevelt terms consisted of little else than to guard the presidential well being. Others were Jacob Rits and Gilson Gardner, the former a sociologist man whose duty for many years compelled him to take close note of everything pertaining to Colonel Roosevelt who have written to me." and writer, and the latter a newspaper All declared that they never saw him

CHESTERTON ON TRIAL

Marconi Scandal Is to Be Threshed Out in London Court.

London, May 28.—The Central crim inal court was packed with distin guished persons of the political and literary worlds for the opening of the trial for criminal libel of Cecil Chesterton, a brother of G. K. Chesterton the author, and one of London's pic

turesque personages.

The prosecution arose out of ar ticles written by the accused, who is editor of the Eye Witness, in which he charged Godfrey Isaacs, manage of the Marconi company, with corruption in connection with the British

government's wireless contract.

The whole Marconi affair, which i now one of the foremost issues in British politics, is likely to be reviewed in the course of the trial.

****************** SHOOTS AT BEER MUG ON HEAD, KILLS STUDENT.

Halle, Germany, May 28.—A fa-tal imitation of William Tell's shot at the apple on his son's head was given by two university students here. A student named Krusskopf, who was with some of his comrades in a beer garden. placed a beer mug on his head and a fellow student shot at it with a revolver. The first ball struck Krusskopf in the center of the forehead, killing him instantly.

Two Killed in Wreck Youngstown, O., May 28.—Two per sons are reported killed and four in jured in a wreck on the Ashtabula di vision of the Pennsylvania lines north of Niles, when a passenger train struck a freight train.

ASK INVESTIGATION OF LOBBY ALLEGATIONS

Resolution Introduced in Both Houses of Congress.

Washington, May 28 .- Senator Cummins presented to the senate a resolution to direct Vice President Marshall to appoint five senators to investigate President Wilson's charge that a lobby exists in Washington to influence legislation, particularly the tariff bill, and to report within ten days.

The resolution would direct the committee to report the names of lobbyists who attempted to influence legislation and the methods employed. If the influence was shown to be exerted on the tariff bill the committee would be instructed to report on the items which "the lobby" desired to have

An investigation of the activities of the tariff lobbyists was proposed in a resolution introduced by Representa-tive Tavenner of Illinois. The resolution recites that "it has been charged by the president that a powerful and insidious lobby, hostile to the pending tariff bill, exists in Washington."

The resolution provides for a committee of five members, appointed by the speaker, to investigate and report

Part of the Republican program for debating the tariff bill in the senate was outlined. More than twenty senators have long speeches in prepara-tion. Senator La Fellette plans to talk for one whole week on many features of the bill.

NO PREPARATIONS FOR WAR

States Denies Report Sent From San Francisco.

Washington, May 28 .- The following statement was issued by the state de partment:

sed the American embassy at Tokyo to deny a San Francisco telegram which appeared in Japanese papers to the effect that preparations were being made for war. The report was to the effect that troops of artillery were being sent to Hawaii and that the Philippine garrison was to be in-

"A few artillery men have been sent to Hawaii in pursuance to plans adopted before this administration began, but no increase is contemplated the Philippine garrison. The shanges that have taken place are only the customary exchange of regiments.

LAND OPENING REGULAR WAY

Settlers in North Platte Forest Re serve Must Make Filings.

Washington, May 28.—Entries for lands in the North Platte forest reservation, to be opened for settlement about Oct. 1, are to be handled by the land offices at North Platte and Broken Bow, depending upon which land office has jurisdiction over them. Several applications have been received by Representative Kinkaid to have the supposed drawings take place in towns near the lands.

Representative Kinkaid said that there would be no drawings, but that the local land office would handle the

entries in the usual way.
"There are about 344,000 acres in the district to be thrown open," Mr. Kinkaid. "They are all under the one-section act. The lands lying in McPherson county will be handled by the North Platte office and those in

New Elk Combined Riding and Walking Cultivator

IT IS ALL IRON AND STEEL-

In the New Elk only those grades of material are used which are absolutely the best for the purpose, combined in a construction which only expert knowledge of the strength and efficiency of material can suggest.

Channel steel side frame bars, light. but strong, attached by malleable clamps to the steel pipe axle bar. This axle bar being made of steel pipe admits at either end the divided steel axle, which, being in two parts, may be slipped into or withdrawn from the cross bar at will by loosening two set screws, thereby affording a variation in the tread of the wheels of fourteen inches, and adapting the cultivator to any width of row.

SPACING OF THE RIGS-

Variation in spacing of the rigs is accomplished by loosening the coupling clamps and moving the couplings on their spindle boxes.

HORIZONTAL SWING-

Horizontal swinging rigs are made possible by the location of the spools over which the chains pass, always at a point directly over the couplings.

ADJUSTABLE COUPLINGS-

Our patent adjustable couplings are conceded to be the best rig couplings ever applied to a cultivator. The coupling pivot is firmly fastened to the spindle box by two clamps, loosening which the coupling may be moved right or left. An up and down adjustment of four inches at this point gives plenty of latitude for leveling the rigs and shovels to suit different condi-

THE SPRINGS-

The springs, attached by a link to a lug on the spindle box are inorperative when the shovels are in the ground, but with the first upward movement they exert a powerful aid in lifting the rigs. Their tension is adjusted by a

BALANCING FRAME-

The balancing frame is a fine feature, now applied to all our riding cultivators. The lever is in easy reach and by it the wheels may be instantly thrown forward or back to perfectly balance the frame, the driver, the rigs and the entire weight of all, so that there is neither flying up nor downward pressure at the neckyoke.

LIFTING LEVERS-

The lifting levers work in ratchets with very short spacing. With these short spaced ratchets the depth of the shovels can be perfectly regulated, as little as a half inch at a time if de-

HIGH WHEELS; CLOSED BOXES-

High Wheels with broad, concave tires make light draft and prevent settling into the soil, and they are equipped with oil-tight, dust-proof, longdistance wheel boxes.

DROP SEAT-

A drop seat places the operator near the work, and it may be adjusted to suit the leg of the driver.

WALKING CULTIVATOR-

A perfect walking cultivator is secured by throwing the wheels forward and turning up the seat, the balance frame feature making the cultivator equally satisfactory as rider or walker.

A spread arch is furnished adjustable to any width. By its use the rigs are connected and swing in unison.

THE DRAFT-

The draft is applied at a point between the evener and the point f the rigs, and may be raised or lowered, as desired.

The New Elk may be equipped with any of over a dozen different styles of rigs. These rigs are all interchangeable and furnish a sufficient variety of styles to suit any purchaser. Furnished in round or open sleeve.

We also carry the John Deere Listed Corn Cultivator and the Favorite Badger.

300 Farm Renters Wanted In the Big Horn Basin, Wyoming

If you want to rent an irrigated farm in the Big Horn Basin on a basis of a share of the crop, write me a letter at once, and teil me what equipment you have for farming; i.e., give me an idea of the number of teams, amount and kind of farm machinery you have, how many of your family will work on the farm, the kind of crop you would be interested in raising, and state whether you want to get a farm where a good part of it is in alfalfa.

There are now a large number of farms in the Big Horn Basin available for renters. These farms very largely belong to non-residents, and are looked after by local agents.

Special Renters' Excursion

On Tuesday, June 17th, 1913, I will personally conduct a renter's exscursion to the Big Horn Basin. Take advantage of the cheap, round trip homeseekers' tickets on that date and go with me to look over these farms. Write for particulars.

D. Clem Deaver, Immigration Agent, Room 360, Q Building,

WM. EVERHART

Stop! Look! Land! Land! Land! In Rainbelt of Eastern Colorado

Mr. Renter, why pay high rent when you can get improved land in Elbert, Lincoln or El Paso county, Colorado from \$12.50 to \$20.00 per acre? Crops last year made from \$10 to \$15 and some high as \$20 per acre. Corn made from 25 to 45 bushels per acre; wheat 15 to 25 bushels; oats 30 to 50 bushels; flax 11 to 14 bushels; Mexican beans 500 to 800 lbs. per acre and forage crops in like proportion. Now is the time to buy, for land is bound to advance. Just stop a moment, and think what might be made on an investment. We have a nice rolling plain, and the very best of water.

If you are interested, write for list or state when you are coming and I will meet you at Mattison and show you the country. Some good farms to exchange.

TO THE HOMESEEKER.

Now if a home you wish to seek,

Come where you can view "Old Pikes Peak"

To the land where plain and mountain meet,

And our farmers grow macaroni wheat.

Where you will find as a rule,
Our summer nights are always cool.
So now come to Mattison town,
And I'll show you the country 'round.

And I'll show you the country 'round.

STOP! LOOK! A bargain if sold before July 1st—a good improved farm of 240 acres in rainbelt of Elbert county. Colo. Three wire fence and 190 acres in cultivation, of which about 75 acres is in wheat and balance in oats. New 6 rocm house with bath and wardrobe; also new barn 38x40, with mow that will hold 50 t. of hay; two large caves; one will hold about three carloads of potatoes; well, windmill and other buildings; on phone line, and ½ mi. of star route; 2½ mi. to store and P. O. and 8 mi. to a good R. R. town; I mi. to school and church. Price \$30.00 per a.; and if sold before July 1st, the crop of 190 a goes with place; will give 3 yrs. time on part at 6 per cent, or would consider an exchange on land in N. W. Mo. The improvements on this place cost \$4,000, and reason for selling the man has poor health caused from injury. Other farms. Address,

E. L. WARD, R. F. D. No. 1, Keysor, Colo.

RECEIVERS FOR FRISCO ROAD

West and Winchell Appointed by Judge Sanborn.

Immediate Cause Is Maturing of Short Time Notes for Nearly Quarter Mil. lion in June-Wage Raise and High Money Also Blamed

St. Louis, May 28 .- Thomas H. West, chairman of the board of directors of S. J. Hopson. the St. Louis Trust company, and B. L. Winchell, president of the St. Louis and San Francisco Railroad company, road in the federal district court here. forth.

The appointment of the receivers here took place about an hour after the appointment of ancilliary receivers for the Chicago and Eastern Illinois, a subsidiary of the St. Louis and San Francisco by the United States district court in Chicago.

The application for receivers for the St. Louis and San Francisco was made to Circuit Judge Sanborn. A receivership was urged as the only solution of the financial difficulties of the road by James Campbell of St. Louis, president of the North American company, said to be a creditor of the road to the extent of \$400,000. The immediate cause of the receivership was the maturing on June 1 of short time notes issued by the railroad for \$2,500,000. which bear 5 per cent interest.

The application for receivers was structive little deviated before the court by Henry S. dinary hair tonics. Priest, representing the directors the railroad and the principal bond-holders and acting in behalf of the North American company. The North American company is understood to hold as collateral on its loan of \$400,000, all the bonds on the railroad's federal land grant of \$1,250,000 acres in Arizona and New Mexico and \$200,-000 first mortgage bonds of the New Orleans, Texas and Mexico Railroad company, a subsidiary.

Ascribed to Many Causes. The financial difficulties of the ratiroad are of long standing and are attributed in part to the southwestern floods of 1911 and 1912, to the increased wages of railway employees and to the high price of money. The ownership of the Chicago and Eastern a financial drain on the parent system.

The St. Louis and San Francisco railroad long was leased to the Atchi son, Topeka and Santa Fe. In 1896 road became independent. Four years later it absorbed the Kansas City, Fort Scott art Memphis, extend ing from Kansas City to Birmingham, Ala., and in 1904 acquired the Chicago and Eastern Illinois.

In 1903 the Frisco became merged Yoakum, the late Edward Hawley and demand more convincing testimony? a group of St. Louis capitalists. has approximately 1,700 miles of rail-

SENATE ORDERS STRIKE INQUIRY

Votes investigation of West Virginia Labor War.

Washington, May 28.—By a viva iution ordering a sweeping investiga tion of conditions preceding and dur ing the strike of coal miners in the Paint creek region in West Virginia The resolution, first introduced in somewhat different form by Senator Kern, has been before the senate for a month.

Under the resolution's authority the senate, through the education and la-bor committee, will look into charge of peonage in West Virginia, violation of the immigration laws, of interference with the mails and postoffices and violation of the constitution and laws of the United States in the trial of citizens by a military tribunal. It will examine reported combinations among operators in violation of the Sherman anti-trust act and alleged dis crimination by immigration authorities at ports of entry and determine wheth er arms and explosives were imported into Paint creek for improper use.

Suffragettes Try to Wreck Express. Reading, England, May 28.-Two loud explosions occurred and great columns of smoke rose from the plat form as the express from London to Bristol rushed through the station A workman was struck on the neck by a small piece of metal, but no other damage was caused. A sheaf of suffragette literature was found under the platform. The explosion is supposed to have been caused by a suffragette bomb.

Receiver for Chicago Railroad.

Chicago, May 28.-Receivers wer appointed for the Chicago and North eastern railway by Federal Judge Car penter on complaint of the Railway Steel Spring company. The railroad concurred in the appointment. Will iam J. Jackson, vice president of the road, and Edwin W. Winters of New York were appointed receivers.

Mrs. Cynthia Mulholland, who fell and broke her hip on Tuesday, is resting nicely today and her condition is much improved.

Cleaning Off Rubbish.

The rubbish on the postoffice grounds is being hauled off. The fence that has been out around the biuld ing is also being taken down.

CORROBORATE T. R.'S STORY

Witnesses Assert They Never Saw Colonel Intoxicated,

PHYSICIANS ON THE STAND.

Roosevelt Declares He Was Never Un. der the Influence of Liquor in His Life; Not Total Abstainer-Some times Takes White Wine.

Marquette, Mich., May 28.-Theo-

dore Roosevelt, a picture of ruddy vigor and perfect health, turned a quare head and a square jaw in the direction of twelve farmers, teamsters miners and woodsmen in court and gave his character for sobriety as "no a total abstainer," but never intoxicated in his life. His testimony was corroborated by others who followed.

If the sturdy looking man who spent seven years of his life in performing the duties of president of the United States saw anything curious in his position of explaining to the twelve sim ple toilers of the woods and the mines that he was not really a drunkard, as charged in an alleged libelous editorial by the defendant, George A. Newett his countenance did not betray it, nor

did his manner. When Mr. Pound, his counsel, after a brief outline of the plaintiff's case to the jury, called the colonel to the witness stand, the latter stepped brisk ly forward.

Tells the Jury.

"Now tell the jury," instructed his lawyer, and the client, who had been president, twisted his chair to face the jurers in their box and proceeded to "tell them" as directed.

The witness expressed a detestation for whisky and beer. Of the latter he could remember having taken only on mouthful in his life. That was at the Deutschers' club in Milwaukee, where he was urged to pay the tribute of a swallow of the amber brew which forms one of the city's leading indus tries. As for whisky, he got it mos under protest upon insistence of hi doctors who put a temspoonful of it in goblets of milk which they sometimes treme fatigue in the midst of political campaigns

Drank Only Under Compulsion. In epitome the former president's testimony showed that he drank liquo or wine only when compelled to for indisposition, or when public occa-sions required, except that he takes a glass of light wine, rarely two glasses with his meals.

Much of the succeeding testimon was introduced to indicate that the plaintiff's physical vigor, his functional perfection, his violence of exercise and his immense capacity for work could not exist in the person of an individual who got "drunk" and that not infrequently, as the alleged libelous article in the Iron Ore charged. Important witnesses on this phase of the examination were Dr. Alexander Lambert, Roosevelt's family physician and intimate friend of thirty years. and Dr. R. N. Rixey, surgeon general, United States navy, retired, whose official duties during the McKinley and Roosevelt terms consisted of little els son Gardner, the former a sociologist and writer, and the latter a newspaper man whose duty for many years com pelled him to take close note of every thing pertaining to Colonel Roosevel All declared that they never saw him

CHESTERTON ON TRIAL

Marconi Scandal Is to Be Threshed Out in London Court.

London, May 28 .- The Central crin inal court was packed with distinguished persons of the political and literary worlds for the opening of the trial for criminal libel of Cecil Ches terton, a brother of G. K. Chesterton the author, and one of London's pic turesque personages.

The prosecution arose out of articles written by the accused, who is editor of the Eve Witness, in which he charged Godfrey Isaacs, manage of the Marconi company, with corrup tion in connection with the British government's wireless contract

The whole Marconi affair, which i now one of the foremost issues in British politics, is likely to be reviewed in the course of the trial.

SHOOTS AT BEER MUG ON HEAD, KILLS STUDENT.

Halle, Germany, May 28 .- A fa al imitation of William Tell's shot at the apple on his son's head was given by two university students here. A student named Krusskopf, who was with some of his comrades in a beer garden placed a beer mug on his head and a fellow student shot at it with a revolver. The first ball struck Krusskopf in the center of the forehead, killing him instantly.

Two Killed in Wreck. Youngstown, O., May 28 .- Two per sons are reported killed and four in jured in a wreck on the Ashtabula di vision of the Pennsylvania lines north of Niles, when a passenger train struck a freight train.

ASK INVESTIGATION OF LOBBY ALLEGATIONS

Resolution Introduced in Both Houses of Congress.

Washington, May 28 .- Senator Cummins presented to the senate a resolution to direct Vice President Marshall to appoint five senators to investigate President Wilson's charge that a lob by exists in Washington to influence legislation, particularly the tariff bill, and to report within ten days.

The resolution would direct the com mittee to report the names of lobbyists who attempted to influence legislation and the methods employed. If the in fluence was shown to be exerted on the tariff bill the committee would be instructed to report on the items which "the lobby" desired to have changed.

An investigation of the activities of the tariff lobbyists was proposed in a resolution introduced by Representative Tavenner of Illinois. The resolu tion recites that "it has been charged by the president that a powerful and insidious lobby, hostile to the pending tariff bill, exists in Washington.'

The resolution provides for a committee of five members, appointed by the speaker, to investigate and report to congress.

Part of the Republican program for debating the tariff bill in the senate was outlined. More than twenty sena tors have long speeches in preparation. Senator La Follette plans to ures of the bill.

NO PREPARATIONS FOR WAR

United States Denies Report Sent

Washington, May 28 .- The following statement was issued by the state de-

"The state department has author sed the American embassy at Tokyo to deny a San Francisco telegram which appeared in Japanese papers to the effect that preparations were being made for war. The report was to the effect that troops of artillery were being sent to Hawaii and that the Philippine garrison was to be in creased.

"A few artillery men have been sent to Hawaii in pursuance to plans adopted before this administration began, but no increase is contemplated the Philippine garrison. shanges that have taken place are only the customary exchange of regiments.

LAND OPENING REGULAR WAY

Settlers in North Platte Forest Reserve Must Make Filings.

Washington, May 28 .- Entries for lands in the North Platte forest reser vation, to be opened for settlement about Oct. 1, are to be handled by the land offices at North Platte and Brok en Bow, depending upon which land office has jurisdiction over them. Sev eral applications have been received by Representative Kinkaid to have the supposed drawings take place in towns near the lands.

Representative Kinkaid said that there would be no drawings, but that the local land office would handle the entries in the usual way.

"There are about 344,000 acres in the district to be thrown open," said McPherson county will be handled by the North Platte office and those in Grant county by the Broken Bow land office. I have so informed the parties who have written to me."

Millinery

First door north of the Linville Hotel

New Elk Combined Riding and Walking Cultivator

IT IS ALL IRON AND STEEL-

In the New Elk only those grades of material are used which are absolutely the best for the purpose, combined in a construction which only expert knowledge of the strength and efficiency of material can suggest.

SIDE FRAME BARS-

Channel steel side frame bars, light. but strong, attached by malleable clamps to the steel pipe axle bar. This axle bar being made of steel pipe admits at either end the divided steel axle, which, being in two parts, may be slipped into or withdrawn from the cross bar at will by loosening two set screws, thereby affording a variation in the tread of the wheels of fourteen inches, and adapting the cultivator to any width of row.

SPACING OF THE RIGS-

Variation in spacing of the rigs is ling clamps and moving the couplings on their spindle boxes.

HORIZONTAL SWING-

Horizontal swinging rigs are made possible by the location of the spools a point directly over the couplings.

ADJUSTABLE COUPLINGS-

Our patent adjustable couplings are conceded to be the best rig couplings ever applied to a cultivotor. The coupling pivot is firmly fastened to the spindle box by two clamps, loosening which the coupling may be moved right or left. An up and down adjustment of four inches at this point gives plenty of latitude for leveling the rigs and shovels to suit different condi-

THE SPRINGS-

The springs, attached by a link to a lug on the spindle box are inorperative when the shovels are in the ground, but with the first upward movement they exert a powerful aid in lifting the rigs. Their tension is adjusted by a nut and thread.

The balancing frame is a fine feature, now applied to all our riding cultivators. The lever is in easy reach and by it the wheels may be instantly thrown forward or back to perfectly balance the frame, the driver, the rigs and the entire weight of all, so that there is neither flying up nor downward pressure at the neckyoke.

LIFTING LEVERS-

The lifting levers work in ratchets with very short spacing. With these short spaced ratchets the depth of the shovels can be perfectly regulated, as little as a half inch at a time if de-

HIGH WHEELS; CLOSED BOXES-

High Wheels with broad, concave tires make light draft and prevent settling into the soil, and they are equipped with oil-tight, dust-proof, longdistance wheel boxes.

DROP SEAT-

A drop seat places the operator near the work, and it may be adjusted to suit the leg of the driver.

WALKING CULTIVATOR-

A perfect walking cultivator is secured by throwing the wheels forward and turning up the seat, the balance frame feature making the cultivator equally satisfactory as rider or walker.

SPREAD ARCH-

A spread arch is furnished adjustable to any width. By its use the rigs are connected and swing in unison.

THE DRAFT-

The draft is applied at a point between the evener and the point f the rigs, and may be raised or lowered,

SHOVEL RIGS-

The New Elk may be equipped with any of over a dozen different styles of rigs. These rigs are all interchangeable and furnish a sufficient variety of styles to suit any purchaser. Furnished in round or open sleeve.

We also carry the John Deere Listed Corn Cultivator and the Favorite Badger.

RECEIVERS FOR FRISCO ROAD

West and Winchell Appointed by Judge Sanborn.

ONLY WAY OUT OF TROUBLE,

Immediate Cause Is Maturing of Short Time Notes for Nearly Quarter Mil. lion in June-Wage Raise and High Money Also Blamed.

St. Louis, May 28.-Thomas H. West, chairman of the board of directors of S. J. Hopson. the St. Louis Trust company, and B. L. Winchell, president of the St. Louis and San Francisco Railroad company. road in the federal district court here. forth

The appointment of the receivers here took place about an hour after the appointment of ancilliary receivers for the Chicago and Eastern Illinois, The Hair Grower New Sold in America the date, Saturday, May 31 a subsidiary of the St. Louis and San Francisco, by the United States district court in Chicago.

The application for receivers for the St. Louis and San Francisco was made to Circuit Judge Sanborn. A receiver. ship was urged as the only solution of the financial difficulties of the road by James Campbell of St. Louis, president of the North American company, beautiful as Parisian Sage. said to be a creditor of the road to the extent of \$400,000. The immediate cause of the receivership was the maturing on June 1 of short time notes issued by the railroad for \$2,500,000, which bear 5 per cent interest.

The application for receivers was structive little devilaid before the court by Henry S. dinary hair tonics. Priest, representing the directors of the railroad and the principal bondholders and acting in behalf of the North American company. The North American company is understood to hold as collateral on its loan of \$400,000, all the bonds on the railroad's federal land grant of \$1,250,000 acres in Arizona and New Mexico and \$200,-000 first mortgage bonds of the New Orleans, Texas and Mexico Railroad

Ascribed to Many Causes. The financial difficulties of the rail-road are of long standing and are attributed in part to the southwestern floods of 1911 and 1912, to the in creased wages of railway employees and to the high price of money. The ownership of the Chicago and Eastern

a financial drain on the parent system. The St. Louis and San Francisco railroad long was leased to the Atchion, Topeka and Santa Fe. In 1896 the road became independent. Four years later it absorbed the Kansas When the Proof Can Be So Easily In-City, Fort Scott ark Memphis, extending from Kansas City to Birmingham,

Yoakum, the late Edward Hawley and demand more convincing testimony? a group of St. Louis capitalists. It T. A. Murray, 707 East Fourth street,

SENATE ORDERS

Votes Investigation of West Virginia Labor War.

Washington, May 28.-By a viva voce vote, the senate adopted the reso

lution ordering a sweeping investiga tion of conditions preceding and dur ing the strike of coal miners in the Paint creek region in West Virginia The resolution, first introduced in somewhat different form by Senato Kern, has been before the senate for

Under the resolution's authority the senate, through the education and la bor committee, will look into charg of peonage in West Virginia, violatio of the immigration laws, of interfer ence with the mails and postoffice and violation of the constitution and laws of the United States in the tria of citizens by a military tribunal. I will examine reported combination among operators in violation of the Sherman anti-trust act and alleged dis crimination by immigration authoritie at ports of entry and determine wheth er arms and explosives were imported into Paint creek for improper use.

Suffragettes Try to Wreck Express. Reading, England, May 28 .- Two loud explosions occurred and great columns of smoke rose from the plat form as the express from London to Bristol rushed through the station here. A workman was struck on the neck by a small piece of metal, but me other damage was caused. A sheaf of suffragette literature was found under the platform. The explosion is supposed to have been caused by a suffragette bomb

Receiver for Chicago Railroad. Chicago, May 28 .- Receivers were appointed for the Chicago and North eastern railway by Federal Judge Car penter on complaint of the Railway Steel Spring company. The railroad concurred in the appointment. Will iam J. Jackson, vice president c' ta road, and Edwin W. Winters of New York were appointed receivers.
